

American Event Services

Heaters

American Event Services designs, builds and *Rentalizes* custom temperature control equipment for temporary or permanent applications. Whether cooling a tent or a building, our R & D department can design a system that meets the most demanding expectations in unique environments.

1 MBtu Indirect Fired Heater

(shown above)

- Up to 16,000 CFM with 6.5" Static
- Tempered Air Mode for LEED Construction
- Allows for lower discharge temperatures when remote thermostat is satisfied to deliver continuous heat to the jobsite
- Variable fan control (3 speeds) provides flexibility in CFM delivery and heat rise, up to 200 F
- 1PH 208-240V or 3PH 208V-240V Operation

What is *Rentalizing*?

American Event Services transforms standard equipment to meet the unique needs of the rental industry.

Industry-leading AES Rentalized equipment is:

- Easy to Use
- Designed and built to withstand robust use in the rental industry

American Event Services

American Event Services also offers Rentalized:

- 5 Ton to 50 Ton AC Units
- 10 Ton to 440 Ton Chillers
- Cooling Towers and Pumps
- Power Distribution
- Chiller Test Stations
- Air Handlers
- And more

1 MBtu Cube Diesel Trailer Heater

- 2 x Blaze 600Ds (up to 510,000 BTUs per heater)
- Total of 13,000 CFM from 2 heaters - highest in the industry
- Ability to run up to 150 ft. of 2 x 16" or 4 x 12" ducts - highest in the industry
- Recirculating Capabilities - only self-contained unit on the market with this capability
- 237 Gallon Diesel Tank allows for 32 hours of continuous run time without refueling
- Multiquip DAC7000SSA 7 kw Sound Attenuated Weather Resistant Generator, 63 dB at 23 ft.

150KW Electric Heater

- 14,500CFM with 6.5" Static (200' of duct)
- 60kw = 6650 CFM, 90kw = 13,100 CFM, 150kw = 14,500 CFM.
- Max. Air discharge temp = 250F
- Fan Manual override
